

STALWARTS CONTROLLED THE COOPER CONVENTION

Executive Machine Men Try to Block the Sweeping Resolutions That Are Passed for the Republicans.

SENATOR WHITEHEAD IS ENDORSED

United States Senator Spooner's Re-election Demanded—Quarles Approved Of—Wm. McKinley's Death Deplored—Roosevelt Commended—But No Mention Made of La Follette.

Today is the Stalwarts' day of victory. Today the insults that have been showered upon them for several years by the executive machine and its followers are to be wiped out and past scores evened up. Honorable H. A. Cooper is re-nominated for his sixth term in congress. United States Senator John C. Spooner is endorsed and his re-election demanded. Joseph V. Quarles, the junior senator is approved of, President McKinley's death is deplored and President Roosevelt's policies have received the seal of approbation. Last Senator John M. Whitehead, Janesville's favored son, is endorsed by the convention as a whole and the support of the First district is assured to him in his fight for the nomination of governor.

It is a bitter pill for the Executive Machine to swallow to have Spooner, Cooper and Whitehead all endorsed and no mention made of the head of that organization. True to their colors they are fighting every move that is made and by the obstruction methods are attempting to thwart the purposes of the republicans assembled.

Fight On Delegates
The first fight was on the seating of the delegates from Rock county. The Edgerton LaFollette men can not get over their stinging defeat of yesterday and by fair means or foul wish to place their delegation in evidence in the convention.

Gag Rule Men Talk
True to the reputation that the machine men made yesterday when they howled about "Gag Rule" and yet held an assembly district convention with but a partial representation present for the reason the other part were republicans and they half-breeds, the First assembly district of Rock county stood up on its hind legs and bayed the moon in attempting to demand what they termed were their rights. It was amusing to note the change in time from a year ago, from two years ago, and from almost any old time when the machine controlled the convention and ruled it with a rod of iron. Even LaFayette county hung its head and sidled over towards the republican ranks when the votes were taken. Racine already half way into line made another break and five more delegates joined the fold before the final votes were counted.

Early Convention
The convention for the First congressional district was called to order at 12 o'clock by W. W. Chadwick of Monroe, who read the call. The convention organized by the appointment of R. J. Burge, of Beloit, as chairman and W. C. Palmer, of Racine as secretary.

A committee on credentials consisting of Joseph Schroeder, of Racine; George A. Yule, of Kenosha; D. B. Barnes of Walworth; George Seegmiller of Rock; R. Holcomb of Green and John Powell of LaFayette, was appointed.

At a meeting of the committee on credentials D. B. Barnes stated that there was a contest in the delegates from the town of Rock and that the matter would be heard by the committee at 1:15.

On motion of M. G. Jeffris the convention took a recess until 2 p. m.

Fight On Representation
The committee on credentials met in the circuit court chambers at 1:15 to consider the contest against the delegates from the town of Rock. The only contest was on the delegates from the county of Rock which was fathered by the members from the First senatorial district. After examining the credentials the committee reported they were ready to listen to the contest from Rock Co.

L. E. Gettle appeared for the First congressional district. Mr. Gettle called the attention of the committee to the fact that it calls for election of delegates from assembly districts. The rule laid by the conventions since 1894 that each district should elect their own delegates. He read the rule laid down by the state convention in 1894. In each state the county to be the unit with the exception of Milwaukee county. By a uniform practice throughout the state each assembly district elects its own delegates and acts as a unit. Each district is to send its own delegates to the state convention. If in Kenosha county this rule is right, why not in Rock county? The call means that each assembly district has the right to elect its own delegates. In the meeting yesterday of the First assembly district their meeting was overruled. That they had a right to assemble and by a majority of fif-

teen presented their delegates to the convention. He felt that it was their duty to the people who sent them here to find out whether they were representing them or not. In 1894 there was no effort made by the contesting district to seat their delegates. J. G. Jeffris stated that the county of Rock for the last twenty-five years had held their convention the same as yesterday. That never in the history had the delegates been in any other position than that of being recommended to the county convention for ratification. The only difference was that in former years the delegation recommended, yesterday the committee recommended. The county convention has elected delegates in pursuance of this call. A committee was appointed by the convention and voted upon by the gentlemen who are now contesting.

T. S. Nolan followed Mr. Jeffris and read a portion of the call. The call was for a convention at 2 o'clock and nothing was stated about three conventions. They voted on every proposition before the convention.

Town of Milton, 9 delegates; Fulton, 4 delegates; Porter, 2 delegates; Lima, 2 delegates; and none of these towns were notified of this convention. He then read an affidavit from M. Green, of Milton, that none of the delegates were notified. He also presented an affidavit from P. Marquart and A. D. Frink from the same town that they knew nothing of this convention. He also presented an affidavit from Fred Houde of the town of Fulton to the same state of facts.

L. E. Gettle presented an affidavit from L. E. Gettle and John L. Isher, that they were present. That they announced in open convention that an assembly convention would be held in the rear of the court room. He tried to convince the committee that the assembly district was a unit.

After continuing the fight over representation for some time the committee made a majority and minority report on the question. On vote taken by the convention the minority report was defeated by a vote of 75 to 30. The majority report was then carried with one dissenting vote.

Cooper Unanimously Nominated
Mr. M. G. Jeffris, of Janesville, made the nominating speech, placing the name of H. A. Cooper before the convention.

endures, our people will cherish and revere the memory of a pure and noble man, and great statesman. The suddenness of his death was appalling, and for a time, we, as a nation, felt helpless; but Theodore Roosevelt, a man of character, strength, and the highest patriotism, was ready for the task. He quickly mustered his forces, gathered about him the friends and advisors of the departed President, and has guided our ship of state with marked success. In the midst of these great labors we pledge to President Roosevelt our united support.

The course of John M. Whitehead of Janesville, in the State Senate has been eminently efficient, conservative and patriotic. He has served not only his immediate constituents, but the whole state, with single-hearted devotion. We endorse his course in the state senate. We recommend him as a candidate of the Republicans of Wisconsin for Governor at the next election, and we hereby pledge to him the unwavering support of the Republicans of this District for nomination and election to that high office.

We reiterate our allegiance to the principles of the Republican party. The country has enjoyed the greatest prosperity under Republican domination in the past. Republican principles have ever meant progress, freedom and equality of opportunity. The maintenance of our prosperity and our position abroad as a nation demands that the Republican Party be continued in power by our people.

Dated at Janesville, Wisconsin, May 24th, 1902.
The vote on the resolutions was 72 for, and 30 against. While there was much discussion on LaFollette men's part, the convention was decidedly Stalwart.

LIFE SENTENCE FOR JOHN POLEET

Man Who Claims to Have Been Overcome by Desire to Kill Pleads Guilty to Murder.

Springfield, Ill., May 27.—John Poleet, who recently killed and robbed his traveling companion, Charles Isaacson, in this city, pleaded guilty in the circuit court and was sentenced to serve a life sentence in the Chester penitentiary. Poleet had declined to employ counsel or permit his family to do so, but Attorney William Patton pleaded with the court to spare the man's life because of the effect a death sentence would have on his wife and aged parents.

In summing up the case Judge Creighton intimated that Poleet belonged to the type of men for whom the death penalty has no terrors and who would find pleasure in exhibiting his bravado on the scaffold. He said he had given the matter careful attention and without further comment he fixed the penalty at life imprisonment.

Poleet after the sentence was imposed declared that he was utterly indifferent concerning his fate, but since it was a relief to his family he was pleased that the death penalty had not been inflicted.

TRAINMEN OUTWIT ROBBERS

Refuse to Stop at Roy's Branch, a Famous Hold-up Spot.

St. Joseph, Mo., May 27.—An attempt was made to hold up Burlington express train No. 26 at Roy's Branch, about one mile north of the city limits. Engineer Fred Midgett was startled by the explosion of two torpedoes, but, looking ahead, he saw nothing to indicate danger. He ran 200 yards past the point where the torpedoes exploded and, looking back, saw a red light shining near the track. Conductor Samuel T. Tatum at once divined the presence of train robbers and signaled the engineer to proceed, which he did cautiously in order to avoid consequences of a possible error in judgment. The train arrived at the Union station ten minutes late.

REMINISCENCES OF CALIFORNIA

A FEW PETALS FROM THE FLOWER
SHOW AT LOS ANGELES.

Chief Feature of the Annual Fiesta
is the Floral Parade in Which Mil-
lions of Choice Blossoms Are
Used—Description of Some of the
Leading Entries.

So much interest has been manifested in the subject of California and existing conditions there, the general knowledge of life in the Golden state is so vague, unsatisfactory and even mistaken, and many of its characteristics are so peculiarly Californian and so foreign to anything to which Wisconsin residents are accustomed, that there has seemed reasonable provocation for me to continue in the happy privilege of now and then telling you a few of my personal impressions.

Many questions have been asked concerning La Fiesta de Los Flores, the feast of the flowers, which is celebrated annually in Los Angeles. This year it was postponed until the first of May in honor of the biennial convention of the General Federation of Women's clubs. Usually this would have been rather late for flowers to be in their prime but this year the winter rains were so late that the roses were in their full glory of bloom.

The Floral Pageant
The floral parade was, of course, the chief feature of the fiesta. It is impossible to give any adequate idea of the long procession which passed through the streets between masses of humanity packed closely on sidewalks, on special tribunes which had been erected for the occasion, in the buildings and even on the housetops. One must see for himself the gorgeous beauty of the pageant with its unbelievable wealth of choice blossoms and its unique features, representative of life in California in pioneer times and at the present day, to have any conception of the display which can be made in a state where roses are as plentiful as dandelions and where the decorative beauty of the wild mustard bloom receives as high recognition as the stately lily or the fragrant carnation. It is a sight well worth lingering to see even though the winter season be over and the time for the general exodus of tourists from the state be past. Once seen it can never be forgotten but must linger in the memory forever as one of life's happiest experiences.

A detailed account of the parade in a limited space would be an impossibility. The crowd of spectators was in itself an education to the visiting club woman of culture. Japanese, Chinese, Indians, Mexicans, Spaniards, Yankees and blended types of the several races mingled in one great cosmopolitan company, all happy and all bent on the same object to get the best vantage ground possible, to hang onto it and to see the parade.

Millions of Flowers
It came at last, mile after mile, it seemed of prancing horses. Flower-trimmed vehicles, handsome women, courteous cavaliers, uniquely original floats and flowers, flowers, flowers. Many of the carriages were completely hidden beneath a profusion of blossoms which hid even the spokes and rims of the wheels and form the harnesses on the horses. A unique feature of this year's parade lay in the choice of Mrs. George Cole as marshal of the day and twelve accomplished horsewomen as her staff of aides. These graceful riders were all dressed in black and were mounted on high spirited horses which wore a wide collar and pendant streamer, composed of hundreds of roses, and a blanket of roses under the saddle. The ladies rode three abreast each set of three having different colored roses on their horses, cream, yellow, pink and red roses, being used effectively. Mrs. Cole's black steed wore pure white roses.

Tally ho, traps and floats were a mass of blooming beauty, it being almost past belief that so many loads of fresh flowers could be secured. For most of the carriages one flower alone was chosen as the decoration. A trap mantled in hundreds of calla lilies being followed by one made gay with scarlet geraniums, orange marigolds, marguerites, carnations, sweet peas, poppies, mustard blossoms or roses in their many exquisite colors. Great ropes of smilax and other greens were used in profusion.

Some Of The Features
The club displays were especially fine and, the one entered by the Friday Morning club will give some idea of the elaborate plan followed in the parade. This entry was a victoria, attended by eight outriders on horseback and the color scheme was worked out in French gray and pink. Three thousand pink roses, outlined with the silvery gray of the dusty miller plant, were employed in decorating the vehicle and horses and the effect was perfectly exquisite. The horses were silver grays and their trappings were trimmed with pink satin ribbons. The saddle blankets, saddles and bridles were dressed with pink satin and the leading outriders held broad pink satin ribbons which were taken up by the outriders following. The outriders, who wore white flannel suits, white shoes and white Panama hats, rode at the side and in the lead of the ladies in the carriage forming a handsome body guard. The carriage was one mass of pink and grayish green and in this highly artistic bow of beauty were seated Mrs. Rebecca D. Lowe, then president of the general federation, and Miss Lily Benton Fremont, daughter of Mrs. Jessie Benton Fremont and of the "Pathfinder." The ladies wore handsome gowns of French gray and carried pink roses and gray chiffon parasols, lined with pink satin.

The Ebell club tally-ho carried a score of members of the club arrayed in gowns of gold and black, the club colors, with long loves and picture hats of black. The great wagon was trimmed with blossoming mustard, in all its delicate beauty, and the four

black horses wore black nets trimmed with mustard blossoms.

An Historical Entry
The Native Daughters, in their Dead wood stage, the old vehicle dressed in gay marigold blossoms and with native sons as outriders and a Native Son in charge of the California bear that rode in the baggage rack at the rear, spoke of the historical days of early California.

The Afro-American float was an allegory, illustrating the colonial days of America. Swung over the wagon was a great liberty bell of smilax and sweet peas, and under this was an American flag in flowers whose hues gave the stars and stripes the proper colors.

Fire Laddies Win Honors.

One of the best displays of the parade was made by the fire department which took charge of one entire section. Engines, hose wagons, hook and ladder trucks were covered with flowers and many unique and elaborate designs were used. On one wagon alone 18,000 roses were used and the days of effort expended on it may be imagined from the statement that each rose was wrapped on a tooth pick to hold it in place. The top decoration of the wagon was clever and catchy, a little girl and boy swinging side by side in a swing seemingly made of ropes of smilax, under a canopy of green. Besides the roses used the wagon was adorned with great ridges of lilies along the side and great bunches of amaryllis, snow balls and carnations, mingled with ferns and smilax.

Many Others as Beautiful
There were hundreds of carriages, automobiles and pony carts as handsome as those mentioned and everywhere the fiesta colors, red, green and gold, floated conspicuously. Besides the floral section there were the picturesque displays made by the Mexicans and gorgeously brilliant show by the Chinese but these features are a story in themselves and must be told at another time.

The mayor was instructed to borrow \$5,000 to be placed to the credit of the fire and water fund. The \$122 due to Hook & Cummings, the curbing contractors on Court street was ordered paid to Fifield Bros. as assignees.

More time was granted the judiciary committee to consider the ordinances recently revised by M. P. Richardson. The West Side Horse shed was sold to the Jeffris Co. for \$6,250. Officer P. Fanning, serving on the police force in John Brown's place was placed on the pay roll at the same salary that Brown was receiving. George Phelps was appointed special policeman in the vicinity of the post house.

The Park committee made a report on the work done for the improvement of the parks and also in continuing the cement walks now being built by the county. They were given permission to act in the sidewalk matter. The Second Ward park was named Watson's park.

Choose City Paper
The Janesville Gazette was declared the official city paper on the filing of the required bond.

On motion the council adjourned.

edlennes has risen more rapidly than the little French girl, Miss Eva Tanguay, who has scored the hit of the season with her singing, dancing, and artistic character work in Frank L. Perley's production of "The Chaperons." Miss Tanguay is just out of her teens and has had only one season in the large eastern cities, but she has received enough attention to turn the head of a less conscious artist. Her dancing and singing with "My Lady" company at the New York Victoria last winter made her a Broadway favorite at once and resulted in Mr. Perley securing the new candidate for "The Chaperons," before the piece had been cast.

Miss Tanguay's, "My Sambo," song has become the pronounced musical hit of the piece, receiving from eight to twelve encores.

Miss Tanguay has also made a character success of her grotesque female detective part of "Phrosia" in "The Chaperons," and has already been called a "Female Foxy Quiller." She is a veritable bundle of nerves and actively every instant she is before the audience. Her feet are never still and it is remarked that her heels never touch the floor from the moment she appears from the wings.

Young as she is, Miss Tanguay has had eleven years' experience on the stage, beginning as a child actress in "Little Lord Fauntleroy" and being starred before she was fourteen at the head of the Tanguay Dramatic Company. She then spent five years with Franciscan Rodding Repertoire Company before taking up the singing and dancing line of work that has given her prominence in musical productions such as "The Brownies" and "The Merry World."

Minstrelsy
Minstrelsy never will die, but old minstrel ideas have been dead for some time; in fact, ever since Beach & Bowers launched a new and up-to-the-minute novelty in minstrelsy. The company is here tonight and should be attended by all who love the bright and clean in minstrelsy. Beach & Bowers always give us wholesome fun and their appearance is heralded with pleasure.

The Famous Little Comedienne in "The Chaperons."

"The Power Behind The Throne" drug, and believing the end is near at is a romantic drama in four acts, hand, Aria confesses the deception founded on Schiller's classic, "Love she was compelled to practice, and intrigue." The story in brief is as follows: Aria, the daughter of a Court musician, is wooed and won by Baron von Hohenlohe, the son of the president of an Austrian principality. The Duchess Walthelm, who is the mistress of the Prince Regent, desires to marry the Baron in order to better carry on her liaison with the Prince, and he received at Court. As the Baron remains constant to "Aria," the Duchess, by schemes and intrigues, has Aria's father imprisoned and her mother placed upon the pillory. To save her parents from shame and death, Aria consents to write an incriminating letter, containing expressions of love for another. The letter is conveniently disclosed to the Baron, and Aria is brought to the palace and in his presence forced to play the part of a heartless coquette; he, now believing her faithless, requests the honor of the Duchess's hand in marriage, and later visits Aria with the intention of ending both their lives with poison. Under the influence of the

You may hesitate to listen to the advice of strangers, but the testimony of friends or residents of Janesville is worth your most careful attention. It is an easy matter to investigate such proof as this. Then the evidence must be conclusive. Read the following:

Mr. H. W. Rodgers, carpenter, of 210 South Main street, says: "My wife had kidney complaint and rheumatism for five years, suffering a great deal from pain across the loins. Doan's Kidney Pills, sold by the People's Drug Co., brought much longer and gratifying results. At first there was no visible change and she came to the conclusion that they were like all other remedies she had tried, but finally the aching and the distress in the small of her back disappeared."

DO NOT NEGLECT
The Little Ills of Today.

The Use Of

PAINE'S CELERY COMPOUND

Will Eradicate from the Blood and
System the Seeds of Disease.

As grains of sand make our lofty mountains, drops of water the mighty ocean, and as our massive buildings are made of one brick piled upon another, so do little ill of life contribute to the building up of deadly diseases in the body.

Experienced medical men claim that fully three-fourths of our men and women enter the summer season with little ill and symptoms of disease, which must develop into serious and fatal troubles if not banished at once.

We hear our friends complaining daily of rheumatic tendencies, sharp and darting neuralgic pains, dyspepsia, pains in the side and back, nervousness, and sleeplessness; and we see with our own eyes the effects of impure blood in facial blotches, eruptions, and sores. The little ill and pains of today build up the alarming and fatal diseases that follow days and weeks of neglect.

Wise and intelligent people who have looked into the claims of Paine's Celery Compound and followed the remarkable cures of relatives, friends and neighbors, use it themselves with faith and confidence, to banish their symptoms of coming troubles, to clean the blood, to re-establish nerve force, energy and bodily strength, so that they will be in condition to withstand the enervating effects of the coming hot weather.

In every community where Paine's Celery Compound has been used at this season to banish disease, it is regarded as a godsend. Workers in offices, shops, factories, and weary and run down wives and mothers in their homes have thanked Heaven for Dr. Phelps' marvelous prescription, because it made them well. Try a bottle or two, ye who are ailing and sick; it will give you what you most stand in need of—health and new life.

President Mitchell Admits
That Such a Result Is
Quite Probable.

FIVE DISTRICTS SIGN THE CALL

Convention Will Be Called and Date
Named on Leader's Return to Indian-
apolis—Receives Visit from Repre-
sentatives of Civic Federation.

Chicago, Ill., May 27.—President Mitchell of the United Mine Workers of America admitted that the calling of a convention by five districts of the bituminous fields made a strike probable. He said that the signing of the call for a convention by West Virginia made up the necessary five districts required to bring about the special convention. Mr. Mitchell would not say that the calling of the convention made a strike in the soft coal fields sure, but he imagined it was probable. During his visit here Mr. Mitchell met several of the leading operators in the fields of the West and discussed the general situation with them.

"It is impossible to tell what that convention will do," said President Mitchell. "I shall not issue the call until I receive official notice of the signing of the five districts. Then a place for the convention will be selected and a date for holding it be named."

Mr. Mitchell received calls during the day from Franklin MacVeagh and D. J. Keefe, two of the local representatives of the industrial committee of the National Civic Federation. He said their calls had nothing to do with the situation in the anthracite fields, but were made simply to obtain information of the conditions prevailing there.

Mr. Mitchell will return to Wilkesbarre, Pa., the latter part of the week.

WILL BOARD NEW MEN.

Colliery at Hazleton Makes Preparation for Nonunion Workers.

Hazleton, Pa., May 27.—Superintendent Frank Pardee said that the places of most of the striking engineers, firemen and pump runners at Cranberry have been filled. Cots were taken to the Cranberry colliery for the use of the nonunion pumpmen and firemen, who will be boarded in a house a short distance from the mine as long as the strike continues. The company's special officers will be on guard.

As a result of a poll made by the executive board, the local mine workers' leaders expect that all the engineers, firemen and pump runners in the seventh, or Hazleton, district will respond to the strike order on Monday next if they are not granted an eight-hour day by that time.

Coxe Bros. & Co. had agents in town offering \$3 a day to men wanted as pump runners to take the places of the strikers on Monday.

The breaker, engine houses and other buildings at the Elbertvale colliery of G. B. Markle & Co. were boarded up.

Rest on Their Arms.

Wilkesbarre, Pa., May 27.—It is still a matter of conjecture whether the mines will be completely shut down next Monday. The operators claim they will have all the help necessary to keep the pumps and engines in running order.

In order to reach those who are wavering, a call was issued for a mass-meeting of all engineers, pumpmen and firemen in the Wyoming region in this city Friday evening.

State Secretary Mullahy in a statement says the entire Brotherhood of Stationary Firemen will quit work next Monday. He also claims 90 per cent of the engineers and pumpmen will strike.

Miners Leaving Schuylkill. Pottsville, Pa., May 27.—Since the inauguration of the strike in the anthracite coal region there has been a continuous exodus of mine workers from the Schuylkill district. Many of the miners have taken their families with them, intending to locate permanently in other fields. It is estimated that over 2,000 miners have left Shenandoah and vicinity. The engineers, pumpmen and firemen in this section will meet here Wednesday to take action upon the order affecting them, issued by National President Mitchell.

Builders' Strike in Denver. Denver, Col., May 27.—Five thousand union men employed in the building trades went on strike, causing a stopping of building operations in this city. The strike was ordered to assist the woodworkers to secure an eight-hour day.

Inspect State Railroads. Springfield, Ill., May 27.—The railroad and warehouse commission has begun its annual inspection of the railroads of the state. The first lines gone over were the Mobile and Ohio and the Cairo division of the Big Four.

Tolstol's Condition. London, May 27.—A telegram from Yalta, Crimea, says that no complications have arisen in the condition of Count Tolstol, who is suffering from typhoid fever, and that the general state of his health is satisfactory.

Love Leads to Suicide. Murray, Ky., May 27.—Miss Della Wilcox, daughter of Capt. T. H. Wilcox, shot herself through the heart with a pistol, dying instantly. It is supposed that she was despondent over a love affair.

Kodol Dyspepsia Cure

Digests
what you
Eat

Many digestive compounds and tablets are recommended to cure dyspepsia by digesting food with the pepsin they contain. Most of these possess merit, but they all fail in many cases, because pepsin digests only albuminous foods, such as eggs and meat. But we must eat more than eggs and meat; and some of the worst cases of dyspepsia are caused by indigestion of fats and starches and other foods which pepsin cannot digest.

There is one preparation that contains all the digestants. It is KODOL DYSPEPSIA CURE, which digests what you eat, and has been used with remarkable success,—not a single failure to cure being reported from the many thousands who have used it.

J. E. Peabody, Pittsfield, N. Y., says: "The first dose of Kodol Dyspepsia Cure relieved my son of stomach and heart trouble, and four bottles of it cured him. I heartily recommend it."

STRONG ENDORSEMENT

The action of the First district Congressional Convention this afternoon, in endorsing Senator Spooner and Senator Whitehead, was worthy of the intelligence and republicanism represented. The convention was controlled by the conservative element of the party, and while the sentiment regarding Senator Spooner was practically a unit, it was expected that some opposition would develop against Senator Whitehead. The two western counties and a few towns in Racine, succeeded in electing delegations by small majorities that favored the renomination of Governor LaFollette, but arrayed against this contingency was Walworth and Kenosha, solid, with Rock and one district from Racine. This gave the convention a clear majority of more than 35, and this majority expressed by resolution the popular sentiment of the district.

There is no question about the feeling that prevails concerning Senator Spooner. He is in every sense of the word, the people's candidate. The opposition to him is purely political and confined to the inner circle of the administration forces. It is a subtle opposition however, and given opportunity, it will thwart the wishes of the majority. Many people, who admire the governor, are slow to believe this fact, but it is nevertheless true. The renomination of Governor LaFollette means the certain defeat of Senator Spooner and this the Senator thoroughly understands. The resolutions adopted today are very significant, coming from the first congressional district.

So far as the endorsement of Senator Whitehead is concerned, it clears up the political horizon, and puts to sleep a lot of fairy tales that have been floating around the state for the past month.

There is no longer any question about the Senator's home popularity. The half hearted support that the opposition have manifested, as a sweet morsel, has interfered with digestion and he is no longer regarded as a football or weak candidate. The district will be solid for him in the state convention, actuated by both policy and principle. The men who oppose his candidacy in the district, are so largely in the minority, that they will now spend a little time in sober thought, and as they analyze the situation, they will discover that devotion to a magnetic leader is not sufficient ground for opposing a home candidate, who possesses the qualities for an ideal governor.

Thousands of timid republicans throughout the state, will now take heart and the conservative element of the party will be greatly strengthened by positive support.

Senator Spooner will continue to represent the state, because back of him is a loyal constituency that will insist on his doing so. Senator Whitehead will be the next governor, because he represents republicanism, and back of him is the great rank and file of the party. The convention is to be congratulated on the good work accomplished.

THE COUNTY CONVENTION

A part of the delegates from the First Assembly district, left the convention hall yesterday afternoon very much aggrieved, because the convention assumed the right to control its own action. The LaFollette men in this district have been very active during the past month, in forcing the state fight into the congressional convention. They possessed the disposition and only lacked the ability to attempt to run the convention in the interests of the Governor.

The first demonstration was made when they objected to adopting resolutions favorable to the candidacy of Senator Whitehead and when the convention assumed the right to name a list of delegates for them, by committee, their indignation knew no bounds. They failed to recognize the fact that Republicanism and not LaFolletteism, was on trial and that there was no disposition to tolerate any nonsense. As a result of the action taken, Rock County sent a solid delegation to the convention this afternoon and the resolutions adopted, express the republican sentiment.

It was claimed by the disaffected element, which represented about 40 out of 160 votes, that "gag law" was applied, but the claim was without foundation. The plan of this element was to meet in separate assembly convention, elect delegates and pass resolutions favorable to LaFollette, but the convention decided by a vote of three to one that this would be an unwise thing to do, and so it was not permitted.

The First district men, who favored LaFollette, went home sore, but when they take time for a little sober thought, they will discover that the republican sentiment in the county is almost solidly against them, and before the state convention, they may realize the importance of getting into line. They forced the fight and can only blame themselves for results.

THE HON. H. A. COOPER.

The renomination of Congressman Cooper was not a surprise and his many friends throughout the district will be gratified by the work of the convention this afternoon.

Mr. Cooper has served his constituency for ten years. His ability as a statesman is recognized in the House, and he is today chairman of one of the most important committees. He is a student as well as a statesman, and during the thought and discussion on the Philippine question, which has so thoroughly engaged public attention during the past two years, his mind has been occupied in planning ways and means for the important settlement.

The Insular Committee, of which he is the head, have had much to do with the policy that will finally be adopted. There has been no thought on the part of the committee of abandoning the islands, or of turning them over to the natives for self-government.

The theories of Senator Hoar and the class of republicans who endorse his vagaries, have been without influence and the talk of imperialism so popular with democracy, has in no way disturbed the committee.

Mr. Cooper is in accord with the late President Roosevelt, on the question of our island possessions, and humanity enters largely into the policy that will be adopted. The nomination of a Congressman in the first district, is equivalent to an election, so that Mr. Cooper is as well assured of another term, as he will be when the votes are counted in November. He will appreciate the honor, not forgetting the fact that Rock County paved the way for his entrance into congressional life.

A few years ago Chicago discovered that a promenade in the early morning dew, was a great health restorer, and it was not an uncommon sight to see a bare-footed procession wading through the wet grass in the parks. The latest fad, however, developed in the same city, is the dew complexion fad, and now the 400 may be seen any morning at sunrise with faces, in the grass, searching for lost beauty in a dew face bath. Between the dew and the early rising they should find relief.

Mount Pelee is said to be rent in twain, and the eruption is still going on. The only inhabitants of the island of Martinique that are having a good time are the snakes, and they are too sociable to be good company. What is left of that God forsaken land, should be turned over to the reptiles for peaceable possession. When nature and the snakes get busy at the same time, Martinique is a good territory to let alone.

This is the season of storms both natural and political. The sky is clearing under the influence of unusual disturbance, and by the time nature is ready to settle down to business, the political horizon will clear up. The fog is already lifting.

A Rock County Republican Convention is always noted for intelligence and ability. The one in session this afternoon was typical in that respect.

People who have been claiming that Rock County is not solid for Whitehead, have discovered their mistake.

There are no flies on Chairman Burge of Beloit.

PRESS COMMENT.

Milwaukee Journal: When the Green Bay bricklayers signed a protest against making brick at the reformatory, they failed to indicate what kind of work they would like the inmates to perform.

Antigo Journal: Gov. LaFollette has incurred the enmity of a large number of Republicans throughout the state by using influence to secure the Republican state convention for Madison.

Stoughton Hub: The governor's interests would be better subserved in Madison than Milwaukee, and that settled it. Never mind about the comfort and convenience of any body else.

Chilton Times supporter of Gov. LaFollette: The Republicans of this section are not at all pleased with the selection of Madison as the place for holding the next state convention. Although the county is for LaFollette, they think he made a mistake in influencing the committee to select his home city.

Kenosha News: If the governor expects to gain anything by locating the convention in a city where the hotel accommodations are ridiculously inadequate to care for the delegates, he will be disappointed. The scheme of the LaFollette faction to freeze out their opponents by securing all the hotel accommodations in advance will not work.

Hudson Free Republican: Some of the Half-Breed papers have a grievance in their own camp. It is a stomach ache within a stomach ache. This is the trouble. They claim that they have stood by the LaFollette chiefs through thick and thin, and with no reward of any kind. And then when there was no more money to distribute the LaFollette managers run it all into the Free Press to pay for that famous hand book. There is a good deal of justice in the kick. It is a case of this big piggy had supper and this little piggy had none.

DEFINITION.

Osteopathy is the science of treating disease manually by the adjust-

ments of all parts and organs to their natural relation with each other, thus removing the irritations resulting from their abnormal relations, and removing obstruction to the vital forces and fluids of the body; and by stimulating mechanically all organs to their proper function or inhibiting abnormally active processes or movements of portions of the bodily organism. It, therefore, must have a thorough and comprehensive knowledge of human anatomy and physiology, and of the normal and abnormal action and metabolism of all parts of the bodily mechanism.

Portrait of McKinley.
Washington, May 27.—Several friends of Senator Depew were invited to his residence to view two portraits by Muller Ury, one of Mrs. Depew and the other of the late President McKinley.

That of Mrs. Depew is pronounced by art critics to be most lifelike, while the portrait of the late president, which is life size and was finished just before his death, is regarded by Secretary Cortelyou and Gen. Corbin as marvelously correct.

It is understood that Senator Depew, Senator Hanna and others will make an effort to have congress purchase the painting for the white house.

Labor Leaders Make Appeal.

Washington, May 27.—Chief Arthur of the Brotherhood of Locomotive Engineers, Grand Master Sargent of the Brotherhood of Locomotive Firemen, Grand Chief Clark of the Order of Railway Conductors, Grand Master Morrissey of the Brotherhood of Railway Trainmen and President Perham of the Order of Railway Telegraphers have united in an appeal to the senators constituting the Republican steering committee of the senate to give to the anti-injunction bill a place on the senate calendar. They oppose the amendments suggested by the senate committee on judiciary.

To Probe Condition of Negroes.

Washington, May 16.—The house committee on labor has ordered a favorable report on the bill providing for a commission to inquire into the industrial condition of the colored people of the United States.

PHENOMENAL

SUCCESS OF THE OLDSMOBILE MACHINE DURING THE PAST SEASON.

Sold in All Portions of This Country as Well as in Europe.

The phenomenal success of the Oldsmobile during the past season has demonstrated beyond all question of doubt that it is the automobile for which the public has been anxiously waiting ever since the beginning of the industry. The Olds Motor Works are making a machine that is ready to go any distance, starting at a moment's notice; the truth of this claim having been demonstrated by the enormous sales. It has gone into the hands of the inexperienced with the most satisfactory results, and was unquestionably the most popular motor carriage of the year, the demand far exceeding the capacity to build them.

The Oldsmobile will be found in every state in the Union, working in any climate, over all sorts of roads, and giving a good account of itself, even under the most unfavorable conditions. It is simple, durable and reliable, the result of sixteen years' practical experience in building gasoline motors, and of careful attention to detail in construction, realizing all of the many requirements necessary to produce a satisfactory automobile, when in the hands of inexperienced people.

The Oldsmobile is strictly a runabout, weighing but 800 pounds. It is made in but one style, and only one finish, each and every part being made to a standard. The range of speed is from three to twenty miles per hour, over city streets, boulevards or country roads; the light weight and mode of construction enabling the carriage to run smoothly over rough or heavy roads, that would be quite impassable for those of a heavier type. It is tested before shipping with a load on a 20 per cent grade, and as the grade of the average hill is only 10 or 12 per cent, the tests show the vehicle to have ample power for any section of the country.

The Oldsmobile has run under test forty miles on one gallon of common stove gasoline, but as a rule will require one gallon for twenty-five miles for the average road, the expense of running being about 1 cent per mile. Frank H. Blodgett, the local agent, would be pleased to show this wonderful machine to all who are interested.

FOUNDATION WALL SWEEPED AWAY AGAIN

Heavy Rain Storms Do Considerable
Damage at the Cement Post
Factory.

For the second time within a week a large portion of the foundation wall of the cement post factory at the foot of South Main street has been swept away as a result of the terrific storms which have visited this city and vicinity recently. The first damage by the storm occurred one week ago last Sunday and was estimated at \$150.

The storms of last Friday and Saturday caused a repetition of this damage and the loss is judged to be about the same as on the former occasion. Large portions of the seven-foot wall were swept away, one break being about twenty feet long. Several of the stone piers were also swept away. About one-third of the work accomplished on the foundation is in ruins. After the first accident Hayes Bros. expected to cut a new water-way so that future storms would not have any effect on the building but through their inability to secure teamsters and other help the work was not completed although they were ready to take care of an ordinary storm.

Those of Friday and Saturday came with such force, however, that the water took everything in its way. Hayes Bros. have been out through the country buying horses so as to be in a position to do their own teaming and hope to be prepared before another storm comes.

DIED AT THE HOSPITAL

J. D. Du Vol, of Stoughton, Falls to Withstand Surgical Operation.
J. D. Du Vol, a prominent tobacco dealer of Stoughton, died at the Palmer Memorial hospital yesterday afternoon. Mr. DuVol suffered from tubercular glands of the throat and his condition was so critical that his only chance for life lay in a surgical operation. He was brought to this city several days ago and has been cared for at the Palmer Memorial hospital, an effort being made to get him in as good condition as possible for the operation.

The attending physicians feared the result but as the use of the knife offered the only hope Mr. DuVol was placed on the operating table yesterday. In his weakened condition he was unable to withstand the shock and death resulted shortly afterward. The remains were taken to Stoughton for burial. Deceased was well-known throughout the state, especially by the tobacco men. He leaves a wife and two children.

MRS. AUGUSTA MOEHNS
Death came to Mrs. Augusta Moehns an esteemed resident of this city, yesterday morning at 8 o'clock. Deceased was forty-eight years of age and leaves a husband, four sons and five daughters. Funeral services will be held from the home at Clark street, tomorrow morning at 9 o'clock and the remains will be taken to Monroe for burial.

H. L. WEBER
Funeral services over the remains of the late H. L. Weber will be held from the home of his brother, Peter Weber, 8 Bennett street, tomorrow afternoon at 1:30 o'clock. Rev. P. F. Werth, pastor of St. John's Evangelical Lutheran church, officiating. The interment will be in Oak Hill cemetery.

Edgar O'Connor, a Wisconsin soldier of the 2nd Wisconsin of the Iron Brigade, who fell in battle will be dedicated at Arlington. The monument will be unveiled by Miss Edna Brown, a daughter of Representative Webster E. Brown, of Rhineland. Congressman John J. Jenkins will make the address.

AN ODD KLONDIKE SOUVENIR

Mrs. C. H. Payne Has a Bracelet of Gold Nuggets Worth \$250.

Mrs. C. H. Payne, of Los Angeles, Cal., who is visiting her cousins, Mr. and Mrs. Harry Van Gilder, at their home in this city is the proud owner of a unique and handsome bracelet which she prizes very highly as the souvenir of a year which she spent in Dawson City, Alaska. The bracelet is a heavy gold wire from which eleven gold nuggets hang pendant. These nuggets are about as large as a hickory nut, irregular in shape and unpurified, being just as they were picked out of the creek by Mrs. Payne. The intrinsic value of the bracelet is \$250 but it is worth much more than that sum to its owner.

Useful Potato.

A laundryman of Paris has discovered a method of cleansing fine linen and other fragile textures without using soap or other chemicals.

Instead of these he uses boiled potatoes, which he rubs into the goods and then rinses out. It is said that this method will make soiled linen, silk, or cotton much whiter and purer than washing in the ordinary way.

First Hindoo Fellow.

Mr. Paranjpye, the Marhatta young man who was bracketed senior wrangler at Cambridge in 1899 and was the first Hindoo elected a fellow of Cambridge university, after studying three years in Germany, has taken a professorship in a little college at Poona, a small salary, in order to impart what he knows to his own people.

London's Floating Restaurant.

Next summer London will be, in all probability, endowed with a floating restaurant. In the early years of last century an old hull was brought up the Thames and moored off Somerset House. It was filled up as a coffee house, and patronized by all the wits of the town.

GOLF SEASON IS FORMALLY OPENED

Sinnissippi Golf Club Hold Opening
Tournament—Supper, Military Euchre and Dance.

The cold weather and the different events that were going on about the city interfered somewhat with the opening of the golf season. However, a goodly number of enthusiasts gathered at the club house and enjoyed themselves to the fullest extent during the afternoon and evening.

The afternoon was devoted to a "blind bogey or kickers" handicap sweepstake. There were nine entries. In this event which was for a number of golf balls. Numerous other players who would have entered the match were kept away by business and the convention. In this event each player was allowed to elect his own handicap and the score with the handicap added or deducted that came nearest to a blind number which was between 90 and 100, and in this case was 99 took the prize.

Scores As Played.

The entries with their scores and handicaps for the eighteen holes were:

Albert Schaller..... 95 scratch 95
Charles Acherber..... 103 scratch 103
C. C. MacLean..... 103 scratch 103
F. J. Baker..... 103 6 97

Bogey's Was 96.

The blind number being 96, Schaller, Baker, Carter, Baumann and Grant tied for the first place. In order to decide the event they cut cards. The first prize went to F. J. Baker, the second to Al Schaller, and the third to H. G. Carter.

Supper was served in the large room at the club house at 6:30 o'clock and about one hundred and thirty-five gathered around the tables and enjoyed one of the best spreads ever served in the club house.

Play Military Euchre

After the supper tables had been cleared away the room was arranged for a military euchre contest. Ten tables had been arranged, each one representing a fort, having a defending and an attacking party. One party stayed at the table during the entire evening and defended it, while the other party went from table to table attacking the parties defending the other forts.

At the completion of the circle of the forts it was found that two forts had captured the same number of flags and on cutting the cards the Fort Pulaski party, consisting of Mrs. A. E. Matheson, Mrs. H. W. McNamara, Mrs. Mylius, Miss Harriet Einfeld and Messrs. Albert Schaller and C. P. Burnham were the winners.

Close With A Dance

The balance of the evening was devoted to dancing which lasted until eleven o'clock.

THE GOLFERS AT THE GATE

He stood at the portals of Heaven And asked with a smile on his face, If Saint Peter would kindly admit him And assign him a comfortable place.

Then Peter looked troubled and worried And said, "I've seen persons before Who thought they could enter for asking, It's getting to be quite a bore.

"The rules at the Gates are more rigid Since golf took the people by storm, For we found they were using a language, Which made our mild climate too warm."

"So hereafter we ask of each golfer Some questions, tho' quite up-to-date, Which, when answered to our satisfaction, Permit him to enter the Gate."

"Now kindly give closest attention To what I'm about to propound, And answers that suit," said his Saintship, "Will admit to the Cloudy Golf ground."

"You drive from a tee microscopic?" "I do sir, no tee quite so fine."

"Of clubs, I suppose you count dozens?" "My clubs number just forty-nine."

"You drive a long ball and a straight one?" "I do, sir, exceedingly so."

"You putt a good ball with precision?" "I putt where I want it to go."

"You're kind to the caddies and patients?" "I help them to hunt for the ball."

"You have never once yet hurt their feelings?" "Not even when 'lobster' they call."

"You like to lose balls in the gully?" "Enjoyment therefrom I derive."

"You never drive twice without counting?" "I often count two for one drive."

"You never find fault with commitments?" "It's taken men quite off their feet."

"You are never enraged when you're beaten?" "I glory in every defeat."

"Your score, I suppose is kept strictly?" "Each stroke carried fast in my head."

"Your memory never yet failed you?" "I can tell every stroke ever made."

"Perhaps you may have a card with you?" "Yes, any old back score will do, Ah, thanks. Not a good one? 'Twill answer."

By my halo and wings! !!! Twenty-two! ! ! ! !

For a moment Saint Peter was speechless.

Then looking the man in the face, He said, "Go tell Satan I sent you, To take Ananias's place."

WILL VISIT ILLINOIS.

President Roosevelt Will Attend State Fair at Springfield.

Washington, D. C., May 27.—President Roosevelt told Senator Cullom that he would accept the invitation to attend the Illinois state fair at Springfield during the coming autumn. The senator called at the white house to show Mr. Roosevelt a letter which he had received from President Conroy of the Illinois state board of agriculture, which brought the information that as soon as he could assemble the board a formal invitation would be drafted and forwarded to Washington.

"That's good," said the president, "I will make arrangements to go. I want to get better acquainted with the people of Illinois."

Senator Cullom says with the president as its chief attraction the state fair will outdo all previous records.

PECULIAR DEATH OF COWS

Hydrophobia Thought To Have Developed From Bite of a Dog

The death of three cows belonging to Ben Cooper, who lives near the foot of Lake Koshkonong was attended by symptoms which point so strongly to hydrophobia that Dr. E. D. Roberts of this city, state veterinarian and determine, if possible, the true nature of the disease. The cows were bitten about a month ago by a dog belonging to Mr. Cooper, but which was supposed to be only cross, not mad. Mr. Cooper and some of his neighbors' children were also bitten and the dog was reluctantly killed.

Since the death of the cows Mr. Cooper has become worried for fear that the bite may result in hydrophobia or that he might possibly have become inoculated with virus while skinning the dead cows and on the advice of Dr. McManus, of Edgerton, he will go to the Pasteur Institute in Chicago for treatment this week.

The News From County Towns.

MILTON

Milton, May 26.—The Republican caucus held last Friday, was the largest held in Milton for many years. One hundred and sixty-nine votes were polled. The issue was clear cut between the Stalwarts and half-breeds, the former being a unit for Cooper and the latter backing Mayor Richardson. One hundred and twenty-one voted for a ticket headed Cooper delegates, and forty-seven for the opposition tickets, headed by Rev. C. M. Starkweather. As the half-breeds headed by that tireless worker Ezra Goodrich, had been on the war path a week or more securing votes for their ticket, it could not be designated a "snap" caucus, and the result clearly indicates that the republican voters of Milton are "agin" Bobbie in a ratio of about three to one. Congressman Cooper can bank on his Milton constituents every time.

Memorial Day will be observed here by the G. A. R. and W. R. C. They will meet at Post hall at 9 a. m. and march to the cemetery, where they will go through their ceremony of garlanding the graves of the soldier dead.

Mrs. Francis Podmore, President W. C. T. U., Saranac Lake, New York, Owes Her Health to Lydia E. Pinkham's Vegetable Compound. Read Her Letter.

"DEAR MRS. PINKHAM:—For several years after my last child was born I felt a peculiar weakness, such as I never had experienced before, with severe pains in the ovaries and frequent headaches.

"I tried the doctor's medicines and found it money worse than wasted. A friend who had been cured through the use of Lydia E. Pinkham's Vegetable Compound advised me to try it. I did so, also your Sanative Wash, and I must say I never experienced such relief before. Within six weeks I was like another woman. I felt young and strong and happy once more.

"This is several years ago, but Lydia E. Pinkham's Vegetable Compound is my only medicine. If I ever feel bad or tired a few doses brings instant relief."—MRS. FRANCIS PODMORE.

CLINTON

Clinton, May 26.—If the day is pleasant, the memorial exercises will be held in the cemetery. The G. A. R.'s will meet at 1:30 p.m. and head the procession of carriages containing the speaker, Mr. J. G. Monahan, of Darlington, a quartette composed of Mesdames Inman and Tuttle and Misses Jones and Olds, the village counsel and a large number of citizens, who will accompany them to the cemetery. The band and school children will also be present and the flower girls, who will decorate the graves. If the weather is inclement, the exercises will be held in the Baptist church.

A letter was received by L. L. Olds, the first of the week, from his sister, Miss Alice Olds, who left for Manila about three months ago, at which place she was met by Mr. Robert Teal, formerly of Rock county, who went out a year ago to teach in the Philippine Islands. They were married at Manila and then proceeded on their way toward their destination to engage in their life chosen work, both being graduates of Beloit college. The best wishes of many friends attend them in their labors.

Mr. Leon Smith had a very serious injury last Monday, falling a distance of thirty feet to the ground, from the roof of a barn he was shingling. It is supposed he fell while in a dizzy faint, as he has no knowledge of falling. He has been a great sufferer from internal injuries. No bones were broken, but no hopes are entertained for his recovery.

Commencement week is being looked forward to with interest. The graduating exercises will be held as usual in the Baptist church and the orchestra from the Institute for Blind will furnish the music, which will be a rare musical treat. Miss Eliza Bennett is the Valedictorian and Master Harry Conley, Salutatorian. There are twelve in the class.

W. A. Mayhew is having a cement walk laid in front of his business block and will also have one in front of his residence.

Mr. and Mrs. V. E. Winnegare were called to Evansville Wednesday by the serious illness of Mrs. Winnegare's sister, Mrs. Pope, they returned on the evening train.

Quite a delegation attended the church convention at Emerald Grove last week and report a delightful meeting.

The result of the ball game between the High School and the Janesville nine, was in favor of the former, by a score of 6 to 1.

The severe hail storm Saturday night did considerable injury to vegetation and fruit trees and demolished window panes in general.

Mrs. Nancy Jones has returned to her home in Janesville after a visit with friends.

Mrs. Wm. Stewart has purchased Mr. Livingston's place on Main St., where she expects to live soon.

Mr. C. L. Hanson received a telegram announcing the arrival of a little grandson down in Oklahoma, May 14th.

The G. A. R. attended the Baptist church in a body Sunday morning, where the Rev. T. J. Parsons addressed them.

NEGRESS SAVES SON FROM BEING HANGED

Pleads With Mob to Release Her Boy, Though Suffering from Bullet Wound Inflicted by Him.

Marion, Ind., May 27.—The prayers of a mother saved from the vengeance of a mob her son, Willie Francis, colored, who had a rope around his neck with one end thrown over a tree. The attempted lynching took place at a place known as the "Dark Secret."

Willie Francis, colored, returned home and found two white men, Theodore Beam and an unknown man, talking to his sister. He ordered them to leave, but they objected. He then procured a revolver and fired two shots at them, causing them to retreat.

Richard Criswell, a white man, who lived near, hastened to the scene of the shooting and was shot through the hand by Francis. Sarah Francis, mother of the young negro, attempted to take the revolver from him and was shot in the left thigh during the struggle.

Francis escaped, but returned home, when he encountered the three men at whom he had shot at the head of a mob formed to lynch him. He was bound, a rope placed around his neck and he was dragged to a near-by tree and the end of the rope thrown over a limb.

The mother, suffering and bleeding from the wound inflicted by her son, came to his rescue and by her prayers induced the mob not to hang him. Francis was taken to jail and when arraigned in court pleaded guilty to the charge of attempt to murder. He was taken to prison to prevent further trouble.

SNAKES COME IN RAINSTORM

Reptiles Covered Street and Measured from Ten to Fifteen Inches.

Cassville, W. Va., May 27.—One of the peculiarities of the storm, which raged over this part of the state Saturday was the fall of snakes from the lowering clouds while the storm was in the midst of its fury. The reptiles fairly covered the streets during the fall of rain and for an hour after they were to be seen crawling around half stunned. They measured from ten to fifteen inches and resembled the garter snake type except that most of them had rings of white about their necks.
